AcmSaveg

"Code is like humor. When you have to explain it, it's bad."

Summary

Passionate Computer Science student at USTHB with strong foundation in full-stack web development. Experienced in Python, Java, JavaScript, and modern web frameworks including Django and React. Enthusiastic about creating innovative software solutions and continuously learning new technologies.

Education

University of Science and Technology Houari Boumediene (USTHB)   *Algeria*

BACHELOR OF COMPUTER SCIENCE   *2021 - 2025 (Expected)*

- Relevant Coursework: Data Structures & Algorithms, Object-Oriented Programming, Database Systems, Software Engineering, Web Technologies
- Programming Languages: Python, Java, C, JavaScript, HTML5, CSS3, SQL
- Active participation in programming competitions and collaborative projects

Experience

Personal Projects & Academic Work   *Algeria*

STUDENT DEVELOPER   *2021 - Present*

- Developed multiple full-stack web applications using Django backend and React frontend
- Created responsive user interfaces with modern design principles and cross-browser compatibility
- Implemented RESTful APIs and database management systems using MySQL
- Collaborated on team projects using Git version control and agile methodologies
- Built university-specific web applications with user authentication and admin panels

Projects

Web USTHB Project   *github.com/abdessamed5/web-USTHB*

FULL-STACK WEB APPLICATION   *2024*

- Developed comprehensive web application for university operations using modern web technologies
- Implemented responsive design with HTML5, CSS3, and JavaScript for optimal user experience
- Integrated backend functionality with database management and user authentication

Django REST API Project   *github.com/abdessamed5/myproject_back_end*

BACKEND API DEVELOPMENT   *2024*

- Built robust RESTful API using Django framework with comprehensive documentation
- Implemented user authentication, authorization, and secure data management
- Integrated MySQL database with optimized queries and admin panel functionality

React.js Portfolio   *abdessamed5.github.io/Portfolio*

PERSONAL PORTFOLIO WEBSITE   *2024*

- Designed and developed personal portfolio website using React.js with modern UI/UX principles
- Implemented smooth animations, responsive design, and interactive components
- Deployed on GitHub Pages with custom domain support and continuous integration

Skills

Programming Languages	Python, Java, C, JavaScript, HTML5, CSS3, SQL
Frameworks & Libraries	Django, React.js, Bootstrap
Tools & Technologies	Git, GitHub, Linux, MySQL, VS Code, Figma, Postman
Languages	Arabic (Native), French (Fluent), English (Professional)
Development Practices	RESTful APIs, Responsive Design, Version Control, Agile Methodology

Achievements & Interests

2021-Present	**Academic Performance,** Maintaining strong performance in Computer Science coursework	*USTHB*
2021-Present	**Open Source,** Active contributor to open source projects and personal repositories	*GitHub*
Ongoing	**Continuous Learning,** Self-motivated learner exploring new technologies and programming paradigms	

Programming Languages	Python, Java, C, JavaScript, HTML5, CSS3, SQL
